Mohnish Krishna S

B.E. EEE Undergraduate | Embedded Systems, Automation, Circuits

Chennai, India | *krishquanta+pf@gmail.com* | *github.com/krishquanta* | *linkedin.com/in/mohnish-krishna*

EDUCATION

Bachelor of Engineering (B.E.) in Electrical & Electronics Engineering (2026 - 2030)
Dhaanish Ahmed College of Engineering, Chennai | First Year Undergraduate
Coursework: Circuit Analysis, Linear Algebra, Programming in C/Python, Engineering Physics
Higher Secondary (12th TN State Board) - 80% | Secondary School (10th TN Matriculation) - 94.8%

TECHNICAL SKILLS

Electronics: Circuit Analysis, KVL/KCL, Arduino, Tinkercad Simulation, Sensors (ADC/Current)
Programming: Python, C, C++, Bash Scripting, Basic Assembly
Tools & OS: Git, Docker, Linux, Playwright, Valgrind, GDB

FEATURED PROJECTS

IoT Power & Energy Telemetry Node (2026) - Embedded C++, ESP32, Tinkercad, MQTT
Isolated 230V AC energy monitor with Hall-effect sensing and dual-core FreeRTOS firmware.

Shop Cold Outreach Pipeline (2026) - Python, FastAPI, Docker, Celery, Redis
Distributed lead aggregation service with token-bucket rate limiting across 10,000+ dispatches.

BlueLink AI OBD-II Telematics Engine (2026) - Python, PyTorch, ChromaDB, FastAPI
SAE J1979 telemetry parser with physical rule-boundary checks and contextual RAG retrieval.

ACHIEVEMENTS & HONORS

ARCANE 2K26 Code Canvas - 1st Place Winner (Rs 2,000 Cash Prize, Web Dev vs 4th Years)
VELSATHON’26 - Participant: School of Computing Sciences, VISTAS Pallavaram
Smart India Hackathon (SIH 2026) - Internal Round Shortlisted: Distributed sensor telemetry
Inter-Collegiate Circuit Debugging Challenge (2026) - 1st Place (Speed Analysis)
